LOCALLY

May was a bad month for several communities in Quebec, eastern Ontario as well as Happy Valley Goose-Bay in Labrador. The worst flooding in years left families in shelters, basements underwater and uncertainty hanging over the communities. The Steelworkers Humanity Fund contributed \$45,000 to help these communities cope with this natural disaster.

Your Contribution Builds a Better World

GLOBALLY

India, the world's second most populous country with over 1.2 billion citizens, is also one of the world's poorest. While some segments of Indian society have found prosperity, there are still millions of people living in poverty. Whole families have been unemployed for generations, getting by as vendors or beggars on the streets of large cities. In rural areas the poor live in huts with barely anything to live on. The Steelworkers Humanity Fund supports an educational project in the countryside to inform people of their rights and empower them to find jobs and build alternative sources of income.
