Children's Place:
Pay compensation to Bangladesh building collapse victims!

We are shocked to learn that after 1,138 workers were killed and 2,500 were injured in the collapse of a factory making Children's Place clothing, the company still hasn't paid adequate compensation to the injured workers and to the families of the deceased.

It has been nearly a year since the Rana Plaza collapse, the deadliest catastrophe in the history of the garment industry and the victims of this tragedy continue to suffer. We urge The Children's Place to immediately pay full and fair compensation to the injured workers and families of the victims.

Sincerely,
